TRANSIT DEVELOPMENT PLAN, 2006

Section VI, Service Objectives

Goal #1 – System Operations and Maintenance

- Maintain effective and predictable operations to meet customer's expectations.

Goal # 2 – System Preservation

- Preserve and increase the efficiency of the existing system and facilities.

Goal # 7 – Continuously Reduce Injuries, Fatalities, and Risks and, Goal #9 – Effective Community Based Design

- Improve transportation facilities with state-of-the-art safety features

Goal #13 – Support for Tourism

- Improve the quality of tourist related travel experiences in Washington.

Section VII, Proposed Changes, 2006 – 2012

Facilities Preservation Improvement – Expansion of Downtown Aberdeen Station

OPERATIONAL IMPROVEMENTS ALONG US 101 CORRIDOR

- Widen the intersection of Oak Street and Simpson Avenue (US 101). The turning radius is very tight for long vehicles like buses. This intersection gets the full impact of hospital traffic.
- Construct a bus stop at the corner of Oak Street and Simpson Avenue.
